

CQube

HAVE IT YOUR WAY

HAVE IT YOUR WAY

CQube is the next generation coffee machine based on a unique modular system. By making the choices you want, you get the coffee machine best suited for your environment, your requirements and your needs. Now, you can also personalise and style the outside of your CQube. Using graphic features on the machine you can communicate your company's identity, either to promote and strengthen your brand, or just to make it fit into a specific environment.

By adding branding, you get positive, natural exposure for your brand or slogan. Forget about stickers which come loose, or labels which end up looking ugly. Now you have the opportunity to personalise your CQube machine, with a sensible and exclusive look as a result, regardless of whether it's your own logo, a slogan or an illustration. The motif is printed on the aluminium front panel and becomes part of the machine. It's neat, sustainable and elegant.

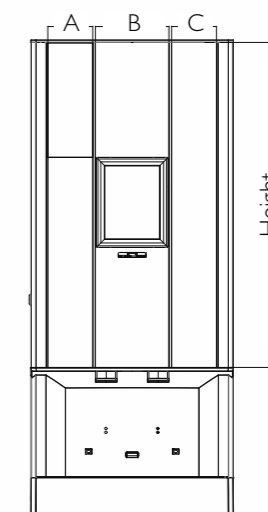

Do you want your CQube to just melt into its surroundings, or do you want it to stand out? The choice is yours!

TECHNICAL INFORMATION

- The front of the CQube consists of 3 panels.
- You can choose to apply branding on one panel, two panels or even on the whole door.
- CQube has a whole range of different modules as optional features. Depending on which one(s) you choose, there are various conditions and possibilities for your branding.
- Logos must be provided as vectorised EPS files.
- If text is to be included, the font must be provided.
- If colour printing is required, PMS or CMYK codes must be provided.
