

COFFEE QUEEN
CQUBE EVO

IN CUP QUALITY

CQube EVO has been designed to maximize your coffee experience. All parts of the brewing process can be adjusted individually to exact specifications. This will ensure the optimum taste and aroma of the coffee. The result will be a perfect cup of coffee, every time.

THE USER INTERFACE LUNA

You can control everything from brewing time and recipe to cleaning and machine care in the user interface. It's intuitive and you can easily customize the interface's design to create a unique feeling and coffee experience.

FORM & FUNCTION

EVO is made of high quality material that is not only nice to touch but also visually emphasizes the machine's finer qualities. The material selection has been made to address all your senses with a focus on functionality, hygiene and durability.

INTEGRATED WATER FILTER

Great coffee starts with fresh and clean water. To ensure that you get the most of each drink, a high quality water filter is an absolute must. Each EVO unit is delivered with a high quality water filter integrated into the machine or the base cabinet.
