

## GRINDER ORIGINAL

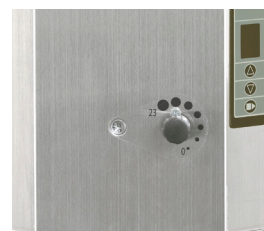

## GRINDER ORIGINAL

This is an elegant, quiet grinder that grinds the beans directly down into a filter holder. The grinder has a clear display on the front, where you can easily select the number of cups to be ground. There is an adjuster on the front, making it easy to choose the grinding level. The styling of the grinder harmonizes perfectly with our Original Line, which makes it easy to fit into both existing and new environments. Grinder Original suits all our 1.8 litre brewers, CQ Mega Gold and CQThermos.

## FACTS

- Bean hopper 2.5 kg
- Grinds straight into the filter holder
- Dosage for number of cups
- Easy adjustment of the grinding level from the front of the grinder
