

Thermos M

Thermos A

THERMOS M & THERMOS A

With Coffee Queen Thermos you brew your coffee directly into a practical 2,2 litre air pot. Handy when you need to keep the coffee warm as well as retain its taste and aroma. Remove the thermos from the coffee brewer and position it where you want the coffee to be served. This coffee brewer is available with either manual or automatic water filling.

The model with automatic water connection has electronic time control, adjustable amount of brew and brewing complete signal. Amount of brew 4-15 cups can easily be adjusted at the front of the machine. Air pots included both models. The model with automatic water filling comes with a connection hose for water.
