# CREM®
*A Welbilt Brand*

# ONYX & ONYX Pro
As intuitive, as attractive

# Creative design for demanding baristas

Born from the perfect combination of reliable, high performance espresso machine and our continuous pursuit of innovative solutions to push coffee technology further, both ONYX and ONYX Pro are espresso machine that merge creative design with endless customization possibilities.

Our goal from the very beginning of this journey has been tocreate a line of espresso machines that can hard work all day long while still looking its very best, perfectly balancing exceptional beauty with practical utility for demanding baristas.

## Customization

We realize that every serving space is unique, so to make sure that ONYX fits perfectly into any environment we have designed it to be easily customized through easily changeable graphic slots, custom inserts in the exterior panels, or by custom-designed side and back LEDs.

**Customized Panels**
Side and back panels can be customized to suit any need or environment.

**LED Illumination**
LED panels on 3 sides allow for virtually unlimited custom branding opportunities. Pro models only.

# ONYX Pro – iconic premium espresso machine

## ONYX Pro 2GR

Features tall espresso groups with fold-away cup trays for smaller cups.

**Options:**

- Auto-steamer

## ONYX Pro 3GR

Features tall espresso groups with fold-away cup trays for smaller cups.

**Options:**

- Auto-steamer

Automatic cleaning

Insulated multiboilers with PID control

Pulse/auto steam controls

Group flushing button

Touchscreen UI

Customizable panels

Led illumination

Quick release cup trays

Soft preinfusion chamber

Straight anti-suction steam wands

Barista lights

**Touchscreen UI**
Take control of brewing, programming and cleaning functions with a 2.5" LCD touchscreen display.
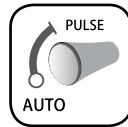

**Straight anti-suction steam wands**
Straight-flow wands ensure minimal steam restriction and anti-suction valves plus Teflon coatings keep everything hygienic and easy to clean.

**Group flushing**
Keep each group clean and ready to go between brews with just the push of a button.

**Pulse/auto steam controls**
Perfectly steam milk by hand, or reduce labour by letting steam flow automatically.

**Soft Preinfusion chamber**
Allow coffee to develop its flavour naturally with preinfusion and complete saturation in every dose.

**Quick release cup trays**
Cup shelves fold up when not needed, and remove with just the press of a button for cleaning.

**Insulated multiboilers with PID control**
PID digital temperature control across all groups guarantees accurate heating for every brew.

**Automatic cleaning**
Auto cleaning means the group head and shower always stay clean and ready for the next brew.

# ONYX – Design, functionality and realiability as you expect

## ONYX Mini 2GR

Features standard and tall height espresso groups.

**Options:**

- 1 extra steam wand

## ONYX 2GR

Features standard height espresso groups.
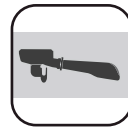

## ONYX 3GR

Features standard height espresso groups.

Keep in mind that all standard versions comes with sheet metal back.

Pid electronic control

Soft-touch portafilters

Steam knobs

Anti milk suction steam valve

Customizable panels

Soft preinfusion group head chamber

Automatic cleaning

### Keypad
Keypad for each group in combination with digital display for easy use and programming.

### Soft-touch portafilters
Comfortable, ergonomic, luxurious and yet extremely durable and stable.

### Group Flushing
Keep each group clean and ready to go between brews with just the push of a button.

### Steam knobs
Manual steam control for steaming the milk with perfect results.
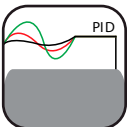

### Soft Preinfusion Heads
Allow coffee to develop its flavour naturally with preinfusion and complete saturation in every dose.

### Anti milk suction steam valve
